

Agricultural Research Scientist 2019 Position Announcement

Diamond Ag Research, Inc. is an independent **Contract Field Research** company conducting a wide variety of agricultural efficacy, residue, and varietal experiments for clients. Doug and Cathy Nord are the owners of this company in Central Kansas. Check out our company webpage at www.DiamondAgResearch.com

Job Title: Research Scientist

Date of Posting: January 12, 2019

Job Description: We are looking to hire a person with agricultural school and experience to conduct research trials in Central Kansas. We conduct research on a wide variety of crops (corn, soybean, sorghum, alfalfa, etc.) in an intensive agriculture area employing irrigation. Our work involves several aspects of product testing to assist manufacturers in bringing their products to market.

Duties: The successful applicant will be responsible for managing field research trials at two sites in Central Kansas. This will include conducting field research projects for clients involving applications of test treatments, data and sample collection, and reporting data in the format requested by clients. This will involve learning industry computer software. Research includes emerging technologies in seeds, plant protection chemicals, fertilizers, and biologicals. This position involves supervising 1-2 full-time employees throughout the year with an additional 1-2 in summer months.

Education and Skills: An M.S. or Ph.D. in a Weed Science, Agronomy, or a closely related discipline. Must be able to plan and conduct a wide range of field research projects. Field research experience at the University or in industry and knowledge of commercial production are essential. The applicant must have good organizational skills, computer skills, good verbal and written communication skills, and promote an environment of teamwork and collegiality. Agronomist must be a U.S. citizen or be eligible to work in the United States and have a valid drivers' license.

Salary: Competitive, commensurate with training and experience.

Starting Date: February 2019 or until the right candidate is found.

Applications should include a written description of goals and qualifications with names and contact information for 3 references to:
